

POLF02

Portable Combustible Gas Leak Detector

Portable detection of combustible gas leaks

KEY FEATURES

- ✓ Semiconductor gas sensor
- ✓ Methane / LPG / CxHy detection
- ✓ Minimum detectable value: 100 ppm CH₄
- ✓ 4-digit LCD
- ✓ Rechargeable Li-ion battery
- ✓ Flexible 270 mm probe
- ✓ Automatic power-off
- ✓ Portable design

APPLICATIONS

- ➔ Natural gas leak detection
- ➔ LPG leak detection
- ➔ Gas pipe inspection
- ➔ Gas appliance maintenance
- ➔ HVAC maintenance

TECHNICAL SPECIFICATIONS

Model	POLF02
Product Type	Portable Combustible Gas Leak Detector
Sensor Type	Semiconductor
Detectable Gases	Methane (CH ₄), LPG, CxHy
Minimum Detectable Value	100 ppm CH ₄
Display	4-digit LCD
Probe Length	270 mm
Battery Type	Rechargeable Li-ion
Battery Voltage	3.7 V
Battery Capacity	2,000 mAh
Operating Time	Up to 20 hours
Automatic Power Off	30 minutes
Charging Interface	USB Type-B
